#### **New Gardner Grade School Principal**

Gardner Grade School students: If you get a knock on the door next week, you should probably answer it. It's your principal calling.

Mike Merritt, the new principal and superintendent of Gardner School District 72C, has an annual routine of visiting the homes of registered

students to personally greet them and get the excitement building for the new school year. And he's super excited about the rounds this year as he meets his new students and their families.

Gardner Grade School isn't just getting a fine educator as the district's CEO. They're getting the 2019 Illinois Elementary Principal of the Year. Merritt received the award in March, given by the Illinois Principal Association.

At the time he was serving as principal at Brentwood Elementary School in Des Plaines, where he worked for five years. O'Hare International Airport, which was always interesting for the staff and 500 students as planes flew overhead.

"Think about the number of principals in the state," said Merritt. "To know that your peers think highly enough of you to select you for this honor and people at the state level respect you, it's very humbling."

Merritt, 42, lives in Joliet's Cathedral District with his wife Nikcole, a cake designer, and two children. The opportunity to serve Gardner came at the right time in his career, and a relief from the grueling five-year commute. He's able to spend more time with Saralyn, 8, a competitive dancer who is going into third grade, and Caleb, 12, a seventh-grader, who is on a traveling baseball team which Merritt head coaches.

He grew up in Decatur and, having played soccer and baseball, he decided to study P.E. and health at Illinois State University. He started his career in 2001 at Martinez Middle School in Romeoville.

His career took him toward administration, first receiving his master's degree and then a doctorate from the University of St. Francis in Joliet in 2005.

He's familiar with Gardner because he worked as principal at L.J. Stevens Intermediate

He also steered the students away from textbooks, pushing for more hands-on learning that would prepare them for real life and the next stage in their education once they left Brentwood. #### **Dwight Resident Involved** in 5-Vehicle Crash on I-55

Illinois State Police have released preliminary information regarding its response to a crash which occurred on Interstate 55, northbound, south of Lorenzo Road at 4:31 p.m. on July 25.

According to preliminary investigations, a truck tractor semi-trailer (unit one) was traveling on I-55 northbound, south of Lorenzo Rd., prior to entering the construction zone.

Traffic was backed up beyond the construction zone and the semi failed to stop before striking the rear of a pick-up truck (unit two). This caused a chain reaction into a third unit, another truck tractor semi-

trailer, a Chevrolet Monte Carlo (unit four, driven by Kevin Cap, 39, of Dwight), and a Toyota Prius (unit five).

Unit's one, three, and four became engulfed in flames. The driver of unit one was pronounced deceased on the scene. The driver of unit two was transported to an area hospital for serious injuries.

All northbound lanes were shut down until 2:00 a.m for the vehicles and debris to be cleared from the scene.

There are no other injuries reported at this time, and the investigation remains ongoing by the ISP, with no further information at this time.

#### Smoke Free Parks Gain Support July 22 Dwight Village Board Actions

by Madelyn Fogarty madelynfogarty@yahoo.com

Teens Terminating Tobacco has gained support for the adoption of an ordinance banning, or at least limiting to designated areas, the use of all tobacco products and vaping devices in Village of Dwight parks. The group of DTHS teens pursued the endeavor as part of their health class studies and made their initial presentation to the board in May advocating for smoke free parks in

Dwight. Previously, on July 2, members of the Village's Ordinance Committee voted 2-1 not to recommend adoption of a tobacco/smoke free park ordinance citing enforcement issues and concerns around adding more rules and regulations to the municipal code and suggested instead signage to encourage smokers to be more mindful of others and their surroundings. However, on July 8 board members voted 3-2 to revisit the matter with Mayor Jared Anderson encouraging setting a positive environment for youth particularly where athletic events take place and youth gather, or where an environmental impact to wildlife exists. At the July 22 meeting, other board members shared similar views.

"I agree and I think it is our duty to protect those areas of high concentration," said Trustee Justin Eggenberger. "We have to be respectful of everyone but, where there are high concentrations of youth, we need to protect them...the pool and all the baseball diamonds – I think you are on

Trustee Randy Irvin, who initially opposed implementing a smoking ban in village parks, told the group he can get behind an ordinance limiting the use of tobbacco and vape products to designated areas, such as parking lots, in places where organized youth activities occur, like Garrett Park and the Stevenson Pool.

Village Administrator Kevin McNamara questioned how the village was going to address the use of marijuana in these areas if a full smoking ban is not put in place. According to McNamara's interpretation of the law, municipalities have the ability to set its own regulations around marijuana use. Marijuana use becomes legal in Illinois January 1.

hand to again make their request to the board and provide and set the example that this evidence they collected at Renfrew Park showing the environmental impact caused by tobacco and vaping use. They also shared evidence of the

health impacts of smoking. "Just like schools, parks and baseball/softball fields are places for kids to have fun and learn," said the group in their initial presentation. "By making them tobacco-free and vape-free, we keep these places healthy and safe for everyone, especially kids."

One student expressed concerns for younger relatives and the negative influence of tobacco. "I would love to see a change in our community for them and future children," the student told the board.

Another shared his experience as an employee at Stevenson Pool where he witnesses smokers just outside the pool's fence, telling the board that he believes "it sets a bad example for the kids...'

"We would like your consideration in keeping Dwight cleaner, safer and healthier for the future," DTHS Health Teacher Mitch Thompson told the board. Thompson, along with Livingston County Health Education and Marketing Director Erin Fogarty, led the group as part of a curriculum to develop advocacy skills with the students choosing the tobacco ordinance as its mission "to provide a healthful environment for today's youth."

Also present was Dwight's Chief of Police, Tim Henson, who spoke in favor of the proposed ordinance calling it a 'good thing" and told the board he was not concerned about enforcement of the proposed smoking policies.

"I think that when we enact something, 90 to 95 percent of the people respectfully obey it without enforcement," Henson told the board.

DTHS Principal Dan Kaiser was also on hand to support the group and shared his experience with enforcement when schools enacted smoking bans on school properties.

"We went through this 20 years ago at schools where tobacco is prohibited on any school property," Mr. Kaiser told the board. "I know there have been questions about how do you enforce that...how do to follow those rules? You have cording to Karch, the new lic Services Complex.

Several students were on to step up as an administrator, as someone who is in charge, will not be tolerated. Once you make that precedent set, it is followed by 95 to 98 percent of the population."

The board referred the mat-

ter to the Administration Committee for more discussion. The consensus was to ban smoking at Garrett Park (Dwight youth haseball/softball fields), Stevenson Pool and Spencer Park with smoking allowed only in designated areas of Lions Lake and Renfrew Park. The committee will look at developing an ordinance with regard to smoking policies in Village of Dwight parks at its next meeting scheduled for 5:30 p.m. on Monday, August 12. Possible action will take place at the following board

In other business, following up on a previous recommendation calling for Public Works to shop for a new chipper at an estimated cost of \$37,000, the board decided instead to move forward with repairing the existing chipper at an estimated cost of \$8,800 and not to exceed \$9,500. The board had previously discussed future options with regard to tree branch removal, including implementing a fee or no longer offering the service to residents. However at the June 22 meeting, Mayor Jared called the no service suggestion "a terrible option" since there are no other branch removal alternatives for residents. As a reminder for residents, branch removal is on Monday and Friday alternating between the north and south side of town each week. Branches should be piled by the curb with all branches cut to a reasonable size and neatly stacked with all branches going in the same direction and cut end facing the street. A six inch diameter branch is the maximum allowed. There is no alley pickup. Residents taking down large branches or whole trees must have that waste removed by a tree service provider.

In a report to the board, Deb Karch, representing the Dwight Economic Alliance, provided an update for the board with regard to local business news. Mrs. Karch reported that an auction of kitchen equipment at the Country Manmodel for the business is more of a catered type venue rather than one utilizing a full service kitchen. Regarding another vacant business in Dwight, Karch reported that several potential national tenants have been identified for the former Shopko building. The building has been for lease or sale, with a \$1.9 million price tag, following the closing of the retail chain earlier this year.

The 2020 United States Census will soon be taking place and Mrs. Karch is encouraging all Dwight residents to take part. It is estimated that five percent of children under the age of five were not counted in the 2010 Census which is about 1 million young children nationwide. By accurately completing the 2020 census, there is more assurance that programs and services along with funding and grants will be offered where most needed. 95 percent of households will receive their census invitation in the mail and can respond online. It was also noted that census jobs are available with more information found at www.census.gov/

Mrs. Karch also thanked the board for approving this year's DEA funding request and assured the board that the DEA is working to be proactive in efforts to be self-sustaining.

"On behalf of the board, we listened, we heard you, and we want to thank you for the investment," stated Karch.

The DEA meets at 7 a.m. on the third Tuesday of each month in the lower level of the Public Services Complex. All are welcome to attend.

### Can Your Family Benefit From a Special Needs Trust?

www.edwardjones.com

Member SIPC

If you have a child or another family member with disabilities, you obviously have concerns and questions. How can you help your loved one achieve the greatest quality of life possible? Can you arrange for adequate services? What's the best way to pay for them? Can you get some financial help?

Your disabled family member may well be eligible for several government programs. But these programs won't cover everything. Some government benefits impose eligibility restrictions based on the level of assets or resources available, which means the financial help you're willing to provide could backfire - unless you establish a special needs trust.

A special needs trust allows the beneficiary - your family member - to receive government benefits while still receiving funds from the trust. You, supply these funds, while a trustee holds and administers them according to your wishes. The beneficiary can't use the trust for basic support - food, clothing and shelter - or to receive benefits that can be provided by the government. Instead, the trust can be used to provide specialized therapy, special equipment, recreational outings and other items.

When considering a special needs trust, you'll need to explore several issues, but it's especially important

Naming a trustee – You could name a trusted family member or friend as a trustee. This choice works well for many people. Another possibility is to name a trust company, providing professional management, expertise and continuity of administration. You can even name an individual and a trust company as trustees, combining the personal touch of a family member with the technical and administrative skills of a professional trustee.

Funding the trust – You can fund the trust during your lifetime or have it activated upon your passing. You don't have to be the sole donor, either - you can structure the trust so other family members can contribute to it. And a trust can be funded with many types of assets - securities (stocks and bonds), IRA proceeds, insurance death benefits and more.

You'll do anything you can to make life better for a disabled child or family member – and one tool you have at your disposal is a special needs trust. Consider looking into one soon.

#### 'Something Else' at **Pontiac Art Center in August**

The August 2019 Gallery Show at the Pontiac Community Art Center, 209 W. Madison St., will open in the Joe Bailey Gallery Saturday, August 3, and will run through Saturday, August 31.

The Gallery Show is entitled, "Something Else," (Words and Pictures Together. Contemplations, Inspirations, and Humor) and features the work of artist Dan Fitzgerald.

Dan describes "Something Else" as a series of images combining photographs that were taken over the years with poems, observations, and comments incorporated into them. Pictures have their own mean-

ing when they are seen on their own, just like words do when they are first read. But when they are combined, they become something else, something other than what they were when they were only pictures and words.

There will be an opening reception from 5:00-7:00 p.m. August 3.

Hours for the Art Center are Monday through Friday, 10:00 a.m. to 5:00 p.m., Saturday, 10:00 a.m. to 4:00 p.m., and Sunday, noon to 4:00 p.m. There is no admission fee and the public is welcome.

#### Kankakee Co. 'Voices of the Past' Cemetery Walk Aug. 25

On Sunday, August 25, Kankakee County's "Voices of the Past" Cemetery Walk will take place at Mound Grove Cemetery, 1000 N. Greenwood Ave. in Kankakee (enter the south side of the cemetery, off Rt. 50 – exit on north side of cemetery).

This event brings the fascinating history of Kankakee to life. Participants who visit Mound Grove Cemetery will get a guided history lesson, as they are led to gravesites of former residents, portrayed by actors in period costumes, and share something of their lives

Visitors will leave with a better understanding of Kankakee County's rich heritage through the lives of its residents.

The historic people being portrayed are: Governor and Mrs. Len and Ida Small, William Gougar, Fannie Still,

Rep. Tom Bennett Reports

#### **Prison Population Decreasing**

Illinois prison population down 20 percent. Over the past five years we have seen a significant decline in the headcount of prisoners in the Illi-Department Corrections (IDOC) system. Over that time, the number of prisoners in DOC facilities fell by close to 20 percent.

According to a recent report from NPR Illinois, the headcount of IDOC prisoners fell from 49,401 to 39,204. It helped ease the burdens on IDOC and its staff, which have been a growing challenge in recent years due to an aging prison population and pressure from the courts to provide more per-prisoner services.

The prison population had been generally increasing since the 1970s (when it was fewer than 10,000) as the state has gotten tougher on drugs, sexual abuse, and other violent crimes. That has resulted in more convictions and longer sentences. The change marked the first time since 1996 that there were fewer than 40,000 inmates in the IDOC system.

Senior Fair coming up August 16. I will host a free senior fair Thursday, August 15, at the Pontiac Rec Center, 900 N. Elm St., from 9 a.m. until 11 a.m.. It is open to the public, especially seniors and their families. There will be refreshments and a door prize.

How much do we owe? As of this writing, the State of Illinois owes \$6,385,212,302 in unpaid bills to state vendors. One year ago, the backlog stood at \$7.6 billion. This figure represents the amount of bills submitted to the office of the Comptroller and still awaiting payment.

State evaluating federal assistance for flooding. All spring and summer it seems like we have been talking about the flooding that has been hitting Illinois from one end of the state to the other.

As the waters have receded, the state has begun evaluating the extent of the damage with an eye toward requesting federal help. To qualify for help from the Federal Emergency Management Agency (FEMA), Illinois would have to have sustained about \$19 million in eligible damages.

The state's damage assessment will help strengthen any application for federal aid. Anyone with flood damage is encouraged to report it to their county emergency manager, as the more thorough the state's damage assessment is, the more likely Illinois is to receive federal help. Woodford County was among the 36 Illinois counties which underwent active flood response and recovery activities from state government so far this year.

#### **CUBBIES**

I'm not entirely shocked that I need to revisit this topic, but here we are. I want to address the topic of Cubs social media, and just Cubs discussion in

There seems to be growing momentum in the Cubs community that Joe Maddon's time as manager needs to come to an end. Joe Maddon, who in the last 11 years has won 90 games nine times. In the other two, his teams won 84 and 77. He's been close to, if not the best manager in baseball over the last decade and has been the most successful Cubs manager in team history.

How people can see that and still want him gone is something that I just can't comprehend. The two most popular arguments I see is that the team is far too talented to be "only" advancing to the NLCS. (Granted they didn't last year.) Along with that one I also see he mismanages the bullpen, which again, if you view the track record of success, is a wild thing for which to criticize the most successful manager at the highest level of baseball.

The assumption that Joe and the Cubs don't have copious amounts of information on pitcher-batter data for a given matchup, and that in some instances the decisions are made prior to the game even starting, is baffling. It's 2019, the second the lineup is out they have everything under the sun in terms of information that shows what pitcher would fare best against particular batters.

That's why when I see people criticizing his decisions, I'm not sure they fully understand what goes into making baseball decisions in 2019. It's largely excel sheets, and massive amounts of data that goes into making decisions and not as much "the manager's decision."

Until Joe Maddon stops winning 90 games every year, I want him in that dugout running things. People are quick to forget what it was like before he got there. It involved a lot of losing.

Go, Cubs.

#### **FEES ARE DUE** AT REGISTRATION

Students/Guardians may also be required to pay other fees for consumable workbooks or project fees for supplies and materials depending upon courses for which they are enrolled.

Parent/Guardians will be required to supply the following information at regis-

tration: Name of Health Insurance; Parent's place of employment and phone numbers; Family Physician and phone number; Adult to contact in case of emergency (if parent/guardian cannot be reached); e-

State law requires students entering ninth grade and students new to the district (at any grade) to present evidence of a physical examination, and immunization records. Students entering ninth grade will be required to show proof of current dental examination, immunizations, including TdaP, MMR, polio, hepatitis B, and two doses of Varicella vaccine or a health care provider's indication of a past case of chickenpox. The LAW states that all students with a diagnosis of ASTHMA have their doctor provide an asthma action plan to the school. Students failing to present evidence of physical examinations and immunizations will not be allowed to enter school until these requirements have been met. Physical and Dental exam forms are available in the high school office.

Incoming seniors: All students entering 12th grade (seniors) will be required to show proof of meningococcal conjugate vaccine (MCV) upon school entry. This law is to prevent a severe form of bacterial meningitis. Some students have already received a meningitis vaccine. If the vaccine was received after age 16, only one vaccine is required. If the vaccine was received prior to age 16, two vaccines are required.

### Caffeine

caffeine (4-6 8 oz. cups of coffee) everyday can lead to serious health problems, such as dehydration. Caffeine is a diuretic, meaning that it helps the body get rid of salt and water, but in excess this can lead to dehydration. Therefore, if you take in large amounts of caf-Other serious effects of excess caffeine include insomnia, anxiety, or caffeine dependency.

Even in moderate consumption, caffeine can cause headaches, lightheadedness, heartburn, sleeplessness, and increased heart rate.

People with osteoporosis or high blood pressure are recommended to avoid caffeine altogether, as caffeine can raise blood pressure and can disrupt the body's absorption of calcium.

Since drinking coffee is often a social event, seniors consume more caffeine than any other age group, according to a 2014 study. Older adults are often more sensitive to changing fluid levels in the body, and may be more susceptible to dizziness and lightheadedness, which can lead to falls. This, along with seniors being

more likely to suffer from high blood pressure or osteoporosis, means that seniors are more likely to suffer the negative side effects of caffeine consumption.

Seniors are not the only group of people who could be affected by caffeine consumpfeine, be sure to drink plenty of tion. Children can also be espewater, in order to stay hydrated. cially sensitive to caffeine, and should avoid food and bey ages that contain it. Those who are pregnant or breastfeeding should avoid caffeine as well, since caffeine is passed on to the child.

If you already suffer from insomnia, anxiety, migraines, or another effect of caffeine, consuming caffeine could make those symptoms worse.

Ordering decaffeinated coffee when out with friends or choosing a caffeine-free soda can make all the difference. Avoid the symptoms of caffeine withdrawals, such as headaches, trouble concentrating, dizziness and irritability, by slowly cutting back on your caffeine intake.

Caffeine is an addictive substance, so cutting back before you become dependent on it can help improve your lifestyle and health.

## Dwight Meadery to hold Grand Opening

Dwight's Unpossible Mead -- one of only a handful of meaderies in the state -- is finally celebrating its grand opening on Saturday, August 3, from 11 a.m.-11 p.m.

Owner Brian Galbreath said the government shut-down earlier this year had him tied up with regulatory paperwork, but he is now crafting plenty of honey wine and is ready to release some new varieties this weekend.

The grand opening just so happens to be on National Mead Day, which was established in 2002 by the American Homebrewers Association as a way to increase mead awareness and foster camaraderie among meadmakers.

He will be serving a strawberry mead, a blackberry mead, a Blend Berry mead made with black currants, blueberries and vanilla, and a traditional orange blossom mead aged four months in a Whiskey Acres bourbon barrel.

People can sip the sweet meads in the tasting room or enjoy the beer garden. Galbreath is also planning a bottle release, including the limited edition orange blossom with only 100 bottles for sale.

Galbreath opened the meadery at 111 E. Chippewa last September during Harvest Days. He gets honey all over the world to craft his meads, and even has a hive on the roof of the building in which he'll nurture and hopefully start harvesting honey next year. The craft brewing industry is waking up to the burgeoning popularity of meads made with honey. He said half his clientele is from out of town.

"I'm hoping for a good turn-out," he said, mentioning that he's hired a label artist to create unique packaging for the bottle releases.

Regular hours are 6-11 p.m., and he has three more barrel-aged meads that will be ready for Har-
