Decades of Service Remembered

EMS Paramedic Sandy Kokaly Retires

by Madelyn Fogarty

madelynfogarty@yahoo.com After nearly four decades of service to Dwight and the surrounding areas, EMS Paramedic Sandy Kokaly retired on October 4.

If you have ever been in an emergency medical or trauma situation, you know the relief when the ambulance arrives and paramedics and EMTs take over. For 37 years, Dwight's Sandy Kokaly has been answering those calls. She has made a profound mark on the community and the people she served, and has left lasting impressions on many lives. Recently, someone I personally know had the need for ambulance services. That person told me, "Sandy Kokaly was on duty...she knew what I needed."

Sandy joined the Dwight Ambulance Service in 1982. At that time, it was a volunteer service operating as a Basic transport service under the direction of the police chief. The fire department was separate then, as it still is today. The ambulance service was housed with the police department, and police officers were required to be on the service. Also at that

time, the Village of Dwight owned the ambulances and the medical control was through the Will-Grundy EMS System, Silver Cross Hospital, Joliet. After joining, Sandy became an Emergency Medical Technician-Basic. In 1984, she graduated as an EMT-Intermediate through Will-Grundy. In 1990, the Dwight Ambulance Service changed to the St. Mary's EMS System in Kankakee. In 1993, Dwight Ambulance Service became its own entity, changing to Dwight Emergency Medical Service. The Village of Dwight contracted with St. Mary's to provide full-time staffing for the ambulances. Sandy was among the first full-time staff members along with Al Metzke, her partner Rod Murphy, Jackie Sparrow and Dave Pellitier. Sandy was in Paramedic school at the time and graduated as an EMT-P in 1994

through St. Mary's program.

Through the years, Dwight **Emergency Medical Services** has had contract changes which include St. Mary's, Kurtz and GMR. Its current medical control is through Morris Hospital. Providers were not the only changes as, according to Sandy, emergency medicine has seen many modifications over the years including changes in Standing Medical Orders, advances in equipment, techniques, and changes in medications ambulance crews

"Our certification is through IDPH and we are required to have a set number of hours of continuing education every four years to recertify," said Kokaly. "There are also medical system requirements."

As one might imagine, the stories a paramedic could tell would fill volumes.

"There are too many stories of calls remembered to put here," said Kokaly when asked. "But, when people in police, fire or EMS get together, there is always a conversation that begins, "Do you remember when....?".

During her career, Sandy has delivered 13 babies. In

Past Times... N.K. Stubbs, of Henry, pro-

The Changing Times: It might be of more than passing interest to a number of folks in high places around the world

that the Keeley institute at Dwight, Ill., is now the site of a supper club called The Lodge. The institute, these fellows surely will recall, was for 87 years a refuge for those who had become unduly addicted to the demon rum. It was there that princes and scholars, law makers and law practitioners, as well as the wealthy and near wealthy, underwent a drying out process that restored them to polite society.

But times change and a cou- way, I joined 'em!"

ple of years ago, the institute closed the doors of the big, old mansion it occupied in Dwight and has now reopened as The Lodge, a place that purveys not only food but, perish the thought, liquor as well! James Oughton, the institute's administrator for its last 35 years, reports that it's kinda fun running a saloon for a change. "After all, I spent all those years learning I couldn't lick 'em," he observed, "so, in a

Edward Jones MAKING SENSE OF INVESTING

Not Too Soon for End-of-Year Financial Moves

We've still got a couple of months until 2019 draws to a close, but it's not too early to make some end-of-

Here are a few suggestions:

Boost your 401(k) contributions. Like many people, you might not usually contribute the maximum amount to your 401(k), which, in 2019 is \$19,000, or \$25,000 if you're 50 or older. Ask your employer if you can increase your 401(k) contributions in 2019, and if you receive a bonus before the year ends, you may be able to use that toward your 401(k), too.

Add to your IRA. You have until April 15, 2020, to contribute to your IRA for the 2019 tax year, but the more you can put in now and over the next few months, the less you'll have to come up with in a hurry at the filing deadline. For 2019, you can put up to \$6,000 in your IRA, or \$7,000 if you're 50 or older. Review your portfolio. Is it still properly diversified, or has it become overweighted in some areas? Does it still fit your risk tolerance, or do you find yourself worrying excessively about short-term price swings?

These are the types of factors that might lead you to make some changes, possibly with the help of a financial Don't forget about your RMDs. Once you turn 701/2, you generally need to start taking withdrawals – the

technical term is "required minimum distributions," or RMDs - from your traditional IRA and your 401(k) or similar plan. After the first year in which you take these RMDs, you must take them by the end of each year thereafter. If you don't withdraw at least the minimum amount you face a penalty of 50% of what you should have taken out. So, take your RMDs before Dec. 31. The financial services provider that administers your IRA or 401(k) can help you determine the amount you must withdraw.

Think about next year's opportunities. Start thinking now about what you want to do in 2020 from a financial standpoint. Can you afford to ratchet up your investments in your retirement plans? If you have children or grandchildren, have you started saving for college? Have you considered ways to protect your financial independence if you ever need some type of long-term care, such as an extended nursing home stay? If these or other items are on your financial to-do list, start planning now to get them done next year. Don't get left behind without having taken the steps to keep moving toward your financial goals.

Decades of Service Remembered EMS Paramedic Sandy Kokaly Retires

(continued from page 1) hit very close to home.

"It was horrible one day when we responded with the ambulance to a car struck by a train," said Sandy. "When we arrived on the scene, I saw my dad in the smashed car. As soon as I got close enough to hear him, Dad was yelling 'It's not me'. He was a first responder on another fire service and had crawled into the car to help the victims."

Service was just part of life in the Kokaly household as husband Joe was a part-time police officer and served as an EMT on the ambulance team.

"My husband Joe and I were on the ambulance service together for years," said Sandy. "Our daughters grew up knowing that when the pager went off, one of us would be leaving. When they were older, sometimes both of us would leave. It didn't matter if it was in the middle of a meal, a softball game, a birthday party or Christmas. Someone needed help and we would go."

Aside from the disruptions of family life, there are other challenges when answering a call.

"A challenging aspect of emergency medicine is quick thinking, sorting out possible scenarios of care and finding the best outcome for the patient," says Kokaly. "It is not always the same answers. Patients are individuals."

What is her advice for someone considering entering the field?

"For someone considering

Did you know?

While October is the tenth month of the year, its name suggests it is the eighth month. The "octo" prefix is Latin for "eight," so why does the tenth month of the year begin with those four letters? When October was first given its name, people were following the original Roman calendar. The Roman calendar year began in March, which would make October the eighth month. September, October, November, and December's names also were based on numeric value, as were the original fifth and sixth months of Quintilis and Sextilis. However, when the Julian calendar was adopted, January and February were added and became the first two months of the year. Quintilis and Sextilis were renamed at this time to honor Julius Caesar (July) and Emperor Augustus (August). Despite the addition of two extra months, the remaining numeral-named months? names were not changed. This is why their names today no longer coincide with their true placement on the calendar.

Downtown

being a paramedic and going Administration and runs an ininto emergency medicine, don't do it for the money," advised Kokaly. "Enter into it with a strong desire and dedication to help people in their time of crisis or need."

For the Kokalys, retirement may offer some uninterrupted time to focus on family.

"Joe and I have two fabulous daughters, two terrific sons-in-law and six wonderful grandchildren," said Sandy.

Daughter Sandy Abraham and husband Jeneson live in Villa Park where Sandy is a nurse practitioner and homeschools their four children: Josiah, Lydia, Sofia and Rebekah. Jeneson is a physician's assistant.

Daughter Katy McCormick and husband Kurt reside in Bloomington. Katy has her Masters in Early Childhood

home daycare while Kurt works for the Department of Corrections and is very active in Special Olympics. Their sons are Andersen and Lin-

As Sandy puts the pager on silent, she recalls the many people that she worked with and those that supported her along the way.

"I've had some great partners over my time in EMS. Rod Murphy, Tony DeNado, Steve "Squid" McCabe, Andi McGraw...Dwight EMS has been a great place to work with many knowledgeable, caring, dedicated people," said Sandy.

Thank you, Sandy Kokaly, for your many years of dedicated service to this community. And to EMS personnel everywhere, we are grateful. Carry on the good work.

The Dwight Bank, Branch of Bank of Pontiac, will soon be moving into its new quarters at the corner of Franklin and Chippewa.

The classic former bank building at 132 East Main St. is being donated to the Dwight Economic Alliance, which will use it as their office and as an incubator for business startups.

Downtown itself has been largely repaved. It awaits finishing touches like lights, flowers, music, and work on empty buildings, but it is a time of renaissance in Dwight if there ever was one.

Consider not only the newly-paved streets, but the rebuilt rail crossings on Route 66 and 47, a rebuilt West Northbrook Drive at Love's and Arby's, a new Pilot Flying J gas station to be built west of town on Rt. 17 come April, the residential construction underway at Carriage Court Subdivision on the east side of town, a new restaurant opening downtown on Franklin at East Main . . . and you do have the makings of a renaissance.

Not that it will be any better than the downtown where I worked 60-70 years ago. Just different.

by Tom Tock

In my time, West St. (now known as West Main Street) was anchored on its south corner by Alphonse Riccolo and his shoe shop. Then northward — Oscar Christiansen's Radio Shop, Chiovatero & Ballou's grocery store, a beauty shop, Blackstone Theatre, Dwight Star & Herald (my second home), Metroz Mule Barn, Sip 'N' Bite, Fairchild's Men's Wear, Dwight News Agency and the First National Bank of Dwight (the Star & Herald's prime financier).

East St. (now known as East Main St.) had a similar assemblage of businesses, most locally owned, all very stable, that eventually fell to the onslaught of Walmart, the internet, consolidations . . .

A renaissance? Hope.

Correction: The Corner had a typo two weeks ago in regard to how many wooden benches the village has in the downtown area, in Renfrew Park, and Pinecone Path that require occasional maintenance. There are 28, not 37.

Hope that larger number didn't scare off anyone who may be thinking about joining a Friends of the Parks group.

Call the village at 584-3077 to join.

Rep. Tom Bennett Reports

Taiwan To Purchase \$2.2 Billion in Ag Products

Taiwan trade mission comes to Ford County, will purchase \$2.2 billion in ag **products.** Finding markets for Illinois' agricultural products, both domestically and overseas, is essential to the continued success of the state's largest industry. So it was a great thrill to join with Senator Scott Bennett to host a trade delegation from Taiwan in Ford County.

At the end of the tour, Taiwan signed an agreement to buy \$2.2 billion in corn and soybeans over the next two years. This was the end result of a bipartisan effort which included local farmers, legislators, Governor Pritzker, the Illinois Department of Agriculture, the Illinois Corn Marketing Board and the Illinois Soybean Association.

Under the agreement, announced last week, the Taiwan Feed Industry Association will buy 197 million bushels of corn and the Taiwan Vegetable Oil Manufacturers Association will purchase at least 96 million bushels of soybeans in 2020 and 2021. Taiwan has a population of about 25 million people, roughly double the size of Illinois.

Illinois is the nation's number one producer of soybeans and ranks second in corn production. We export 360 million bushels of whole soybeans and 877 million bushels of corn each year. Where agricultural products are concerned, Taiwan is the state's third largest trading partner.

How much do we owe? As of the time of this writing, the State of Illinois owes \$5,944,361,598 in unpaid bills to state vendors. One year ago, the backlog stood at \$7.3 billion. This figure represents the amount of bills submitted to the office of the Comptroller and still awaiting payment. It does not include debts that can

only be estimated such as our unfunded pension liability which is subject to a wide range of factors and has been estimated to be approximately

All proceeds will benefit the Firemen's Equipment Fund.

The Reddick Fire Protection District is an all-volunteer emergency services organization that provides fire, rescue, emergency medical, and hazardous materials response to the approximate citizens and visitors of the RCFPD.

The RCFPD serves approximately 2,000 residents within 52 square-miles that include sections of Kankakee, Livingston, and Grundy Counties.

The RCFPD is made up of 15 dedicated people, of which ten members serve as front line first responders. The RCFPD does all of this on an approximate budget of \$68,000. With these limited funds, the RCFPD and its membership help to offset the costs of various purchases of equipment or access to valuable training opportunities. This is one main reason for engaging in fundraising activities like the Pancake Breakfast.

The RCFPD occupies the former Reddick School building, located at 210 E. Main St. Many current and past residents maintain a fond affection for the "Ole Reddick School" days. The RCFPD recognizes that the fund-raising events and other social gatherings they host are a way for those individuals to reconnect.

I think perspective is important. Earlier this week I had my wisdom teeth removed, all 4 of them. (I guess all, I suppose it's possible to have more than 4 of them, but most people just have 4, so we're going with that.)

I was pretty nervous going into the procedure, I know it's one of the most common procedures done in the country but having never gone under anesthesia before it was still a fairly nerve-inducing procedure to anticipate.

Went in, had it done, easy as that. It wasn't nearly as bad as I thought it was going to be.

But easily, and by far the biggest obstacle thus far post procedure, has been the hunger. I wake up and I'm hungry, I go to sleep and I'm hungry, I eat and even after I eat I'm hungry, I'm hungry all the time.

I wouldn't say I'm a gluttonous person, but I do like my food, I really enjoy eating, I enjoy meals, I like burgers, chicken, things that fill you up. Going to basically an all easy to eat diet that consists of mashed potatoes, ice cream, pudding, yogurt, juice, (insert any other thing that doesn't really need to be chewed) has been quite the chal-

This is where I tie it back into perspective. There are lots of people who have far less to eat than I do on a day to day basis and they probably complain less than me and probably haven't considered composing a newspaper column to complain about how hungry they are because they had teeth removed and couldn't eat what they normally eat for 7-10 days.

So, it's really not all that bad, I'm probably going to be fine. It seems awful right now, and honestly it is, I want to eat what I used to eat more than anything right now.

But, it's probably not that bad.

Go, whoever's playing the Cardinals.

DID YOU KNOW? Since 1922, Fire Prevention Week (FPW) has been observed on the Sunday through Saturday period in which October 9 falls to commemorate the Great Chicago Fire of 1871.

Escape Planning

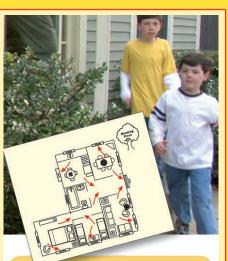

Plan Ahead!! If a fire breaks out in your home, you may only have a few minutes to get out safely once the smoke alarm sounds. Everyone needs to know what to do and where to go if there is a fire!

SAFETY TIPS

- MAKE a home escape plan. Draw a map of your home showing all doors and windows. Discuss the plan with everyone in your home.
-))) KNOW at least two ways out of every room, if possible. Make sure all doors and windows leading outside open easily.
-))) HAVE an outside meeting place (like a tree, light pole or mailbox) a safe distance from the home where everyone should meet.
- >>> PRACTICE your home fire drill at night and during the day with everyone in your home, twice a year.
-))) PRACTICE using different ways out.
-))) TEACH children how to escape on their own in case you can't help them.
-))) CLOSE doors behind you as you leave.

IF THE ALARM SOUNDS...

-))) If the smoke alarm sounds, GET OUT AND STAY OUT. Never go back inside for people or pets.
-))) If you have to escape through smoke, GET LOW AND GO under the smoke to your way out.
-))) CALL the fire department from outside your home.

- (!) A closed door may slow the spread of smoke, heat, and fire. Install smoke alarms inside every sleeping room and outside each separate sleeping area. Install alarms on every level of the home. Smoke alarms should be interconnected. When one smoke alarm sounds, they all sound.
- (!) According to an NFPA survey, only one of every three American households have actually developed and practiced a home fire escape plan.
- (1) While 71% of Americans have an escape plan in case of a fire, only 47% of those have practiced it.
- (!) One-third of American households who made an estimate thought they would have at least 6 minutes before a fire in their home would become life-threatening. The time available is often less. And only 8% said their first thought on hearing a smoke alarm would

The Trojans got a big homecoming win October 4 over Momence, 52-28, their first of the 2019 season.

Dwight got started early, with Daniel Gutierrez running it in for a six-yard score just minutes into the first quarter. After a Samuel Edwards extra point, they would lead 7-0.

Later on in the first, Carson Crouch would take it in for a score on a five-yard carry putting the Trojans up 13-0 after a missed extra point.

Momence would answer with under a minute left with their first points of the game, cutting the lead to 25-6.

However, Dwight was not finished scoring. With just two seconds remaining in the first half, William Bergstrom completed a 20-yard pass to Crouch to put the Trojans up 31-6 at the half, after a successful two-point conversion run by Crouch.

Crouch would return the favor in the third quarter, finding Bergstrom on a 51-yard up 39-6. Minutes later, Gutierrez would run it in for a 20yard TD – upping the lead to 45-6 after a failed extra point.
